Welcome to Trebor Manufacturing, a cornerstone of the semi-trailer accessories industry since our establishment in 1985. Our journey spanning over three decades is characterized by an unwavering commitment to service, quality, safety, and innovation. From our humble beginnings to today, we have evolved while remaining true to our vision of offering the highest quality accessories to meet the evolving needs of Canadian and American truckers.

### ► **Exceptional Customer Service - Your Satisfaction Before and After the Sale**

At Trebor, our customers are our top priority. Even before the first piece is manufactured and long after our products are in your hands, our commitment to your satisfaction remains unwavering. Our experienced team is dedicated to providing exceptional customer service because we understand that your success on the road is a direct reflection of the quality of our products and ongoing support.

### ► **Swift Execution and Custom Manufacturing**

At Trebor, we recognize the importance of swift execution and the ability to build custom products. Our highly skilled team is ready to meet the challenge, ensuring exceptionally short production times to cater to your specific needs. We take pride in our ability to turn ideas into reality, offering personalized accessories that exceed expectations.

### ► **Practical, Safe, and Competitive Accessories**

Trebor accessories are designed to simplify your life on the road. From lightweight aluminum chests to cab protectors offering maximum security, our products withstand the toughest conditions while maximizing your comfort. At Trebor, we believe in the balance between quality and price, offering a comprehensive range of high-quality products at competitive prices.

Contact Us Today Whether you're a manufacturer, distributor, retailer, or industry professional, Trebor is here for you. Contact us today for a free quote and discover how our high-quality accessories can enhance your trucking experience.

# ALUMINIUM TOOL BOXES

# OUR TOOL BOXES ARE OFFER WITH THREE TYPE OF HANDLES

## ANTI-RACK HANDLE

Our luxurious, double-lock, compression Anti-rack handle (also referred to as a Cam-lock or H/D handle) offers better door closure and compression with an exterior locking mechanism for extra protection against theft.

## T-HANDLE HANDLE

Our signature Trebor T-handle is one of our most popular and cost-effective handle options with a key lock. This handle has a stainless-steel finish and offers a unique shine. This handle must be lifted and then turned in order to open the door. There is also a small cap above the lock to protect the entry of the key from weather, dust and debris. This T-handle is installed with stainless steel rivets.

## WHALE TAIL HANDLE

Our signature Trebor Whale tail is one of our most popular options. The waterproof, adjustable Whale tail compression handle makes your truck tool box much easier to open and close and prevents water infiltration because of its compression. Chrome finish with two types of lock. It can be blocked with a key or with a padlock.

### SHELVE(S)

*This feature provides additional storage space to keep your items secure and organized.*

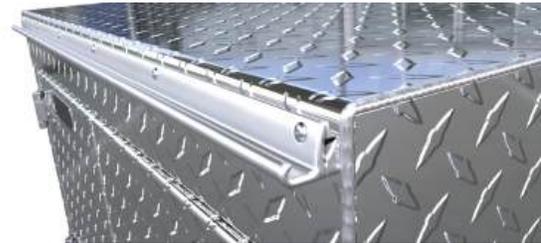

### ADJUSTABLE SHELF/SHELVES

*Different height levels, this allows you to customize the interior space to fit various items, ensuring they stay in place during transit.*

### PULL-OUT DRAWER(S)

*These drawers offer easy access to tools and supplies, making it simple to find what you need quickly.*

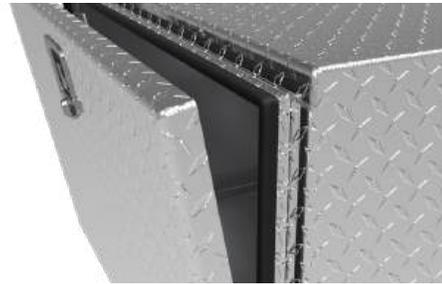

### RAINGUARD

*This feature helps protect the contents of your toolbox from water damage, keeping everything dry and safe.*

### GAS SHOCK

*The gas shock makes opening and closing the lid smooth and effortless, enhancing convenience and safety.*

### TOP COVER FACING (TRIDTC)

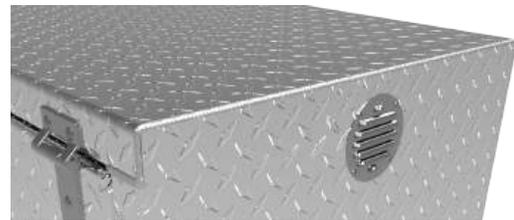

*You have the option to get your doors with a different design that covers the exterior instead of being recessed.*

### 3 SIDES CHAIN ANGLES

*Angles will be welded on the inside of three faces to allow for hooks, straps, or small chains.*

*The top part has been removed to show the installation more easily.*

### SIDE VENT (round or rectangular)

*This feature improves airflow within the toolbox, preventing moisture buildup and protecting your tools.*

# TOP LID TOOL BOXES

## TOP COVER

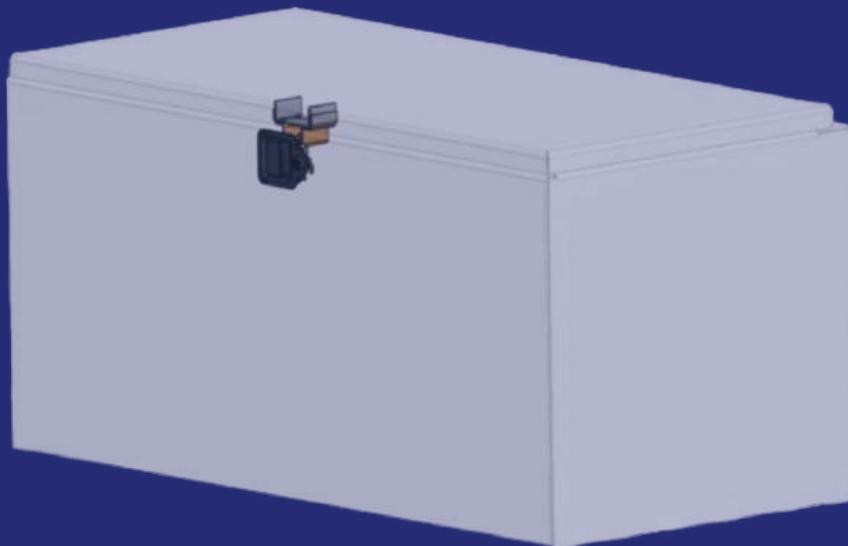

Trebor's semi-truck top lid tool box can easily be mounted and gives you maximum storage.

Top lid truck boxes are practical for storing tools such as your straps, chains, binders, hitching, unhitching tools, like crowbars, lift jacks, box wrenches, hitch balls and much more. This is most commonly installed on the rails of your semi-truck but can also be installed on the side of your truck. By default, the lid opens flush with the rear of the body, (this is referred to as flush mount).

## CLICK HANDLE

Our signature click-handle is specifically designed for our top cover tool boxes. The height of the handle is adjustable and easy to manipulate with no struggling! This handle is very durable and the striker for this handle is welded to the inside of the box lid, giving this handle superior security against theft or break-ins. This click handle is installed with stainless steel rivets. There is also a small cap above the lock to protect the key entry from weather, dust and debris. This type of handle opens like a paddle-handle, you simply lift up the handle like a car door handle to release the latch.

### LIGHTS

*Improves visibility and safety, particularly during night-time driving, aiding in clearer communication through braking and turning maneuvers.*

### ROLL-UP DOOR

*The roll-up door provides easy access to the storage area while maximizing space efficiency.*

### 3 EXTERIOR TOP COVER DOORS

*You have the option to get your doors with a different design that covers the exterior instead of being recessed.*

### DROM DECK

*Several options are available and customizable. If you need a platform to walk on more comfortably, this is for you.*

### PUNCHED WINDOW

*This feature improves visibility from the cab, enhancing safety and convenience. We can punch a full-size window or just in the center.*

### TOP TRAY

*Add a tray on top of your cab guard to have a secure place to put your tarps.*

### OFFSET CABSHIELD

*The panels can be customized to allow for the passage of truck exhausts.*

### HYDRAULIC TANK

*You can add a hydraulic tank to your cab guard, with 3 default sizes (30, 50, and 70 gallons).*

### BROOM & SHOVEL SUPPORT

#### ▶ TOOL HOLDERS OPTIONS

This aluminum Tool holders options is made with highly Very practical support for brooms and shovel, fixed height. This product is made from high quality materials to serve you for years. It will meet your needs and deliver great quality. Hardware included.

#### ▶ MILL FINISH

This mill finish is the surface texture (or finish) of this Chain rack. This texture is smooth and lacks luster. Some prefer this because it has a uniform finish and is easy to polish. It is also the #1 choice if you want to have it painted. This finish will go well with any headache rack.

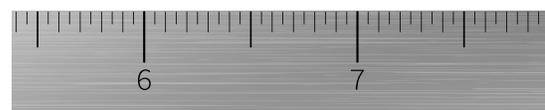

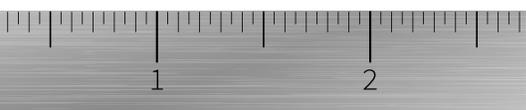

This surface is smooth to make installation easier.dust, etc... this is a great choice for any truck!
